

THE INFO JOURNEY OF

DANA RIN

RUNNING FOR WINFO'S CREATIVE DIRECTOR

SPOKE TO AN ADVISOR

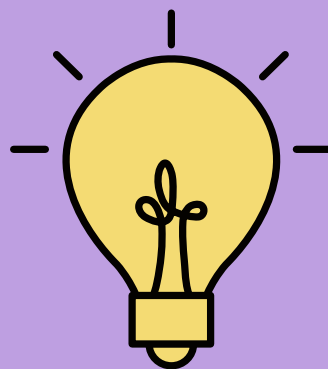

WHAT EVEN IS INFO?

New to the UW, I spoke to an advisor and told her about my passions for technology and design. She told me a little about INFO and recommended giving INFO 200 a try to see if I would like it.

TOOK INFO 200

HMMM IS INFO REALLY FOR ME?

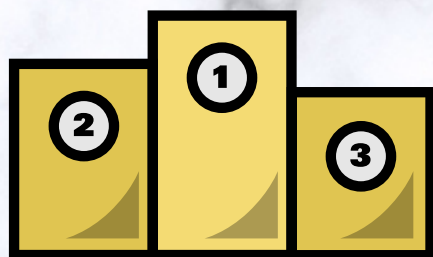

Me and two other classmates worked on a project creating an app prototype of UW's MyPlan. I had a lot of fun doing this as well as learning other content taught in class which motivated me to learn more.

DID MY FIRST HACKATHON

WINFO'S 8TH ANNUAL HACKATHON

My group and I created an app prototype that connected mental health patients with specialized therapists. We were one of the top three groups that placed for the category: Best Impact Overall.

APPLIED INTO INFO

GOT ACCEPTED!

I applied to INFO to start the program in Winter 2021. The suspense was real, but definitely worth the wait. Being admitted to INFO was a feeling I'll never forget.

DID MY SECOND HACKATHON

WINFO'S 9TH ANNUAL HACKATHON

Competed in this hackathon with old classmates from my high school. Created an app prototype that unified all COVID-19 resources in one place. My team and I placed top three for the category: Best Overall.

AND NOW I'M HERE

RUNNING FOR WINFO'S CREATIVE DIRECTOR

Now admitted to INFO, I want to explore other opportunities where my creativity and ideas can be expressed. I cannot wait to see what else the iSchool has in store for me!
