Event Planning

Corresponding

Goal-Driven

Team Collaboration

ABOUT ME

Hey I'm Shruti! I'm a rising senior in Informatics with a focus on software development. When I'm not doing homework, I love to cook, watch cheesy movies on Netflix and hang out with my friends!

EXPERIENCE

Software Engineer Intern

International Flavors & Fragrances/Jun - Sep 2020

- Worked with a team to deliver a web app which acted as a virtual receptionist and to develop an app on AR glasses for factory workers
- Gave weekly updates to my team lead

SWE Hackathon Marketing

January 2019 - April 2019

- In charge of writing posts for the hackathon and posting in relevant Facebook groups
- Managed email for hackathon and answered questions people had about event
- Helped communicate with sponsors at event
- Worked with other members to organize hackathon and logistics for it

IUGA 2021-2022 GOALS

Trips to tour companies!

After being in quarantine for so long, we all want to get back out and see what it's like to work in person at some local Seattle-based offices! We have alumni all over Seattle and I'd love to get in contact with some of them and reach out to recruiters to host some tours and panels!

Professional Development

I want to keep hosting resume and portfolio workshops and add more general workshops which help guide students through some tips to start applying to internships and jobs (apply early, keep in touch with recruiters, reaching out to alumni, etc.). I also want to host more career specific workshops (e.g. data science, swe, product design, etc.)!

Updating the Blog!

I love the IUGA Medium page and want to help IUGA keep contributing to it. I've gotten good advice about classes and job applications from there and I think it's important to keep documenting advice and information for prospective and current Informatics students. I think the blog also helps foster a sense of community.

WHY I WANT TO JOIN IUGA

When I came to UW, I knew I wanted to do something related to technology but I wasn't sure what to major in. After taking INFO 200, I knew I wanted to pursue Informatics because of the incredible community and encouragement to be well rounded regardless of your track. Although the tracks students pursue in this major are diverse, everyone had something interesting to bring to the table during discussions and projects and it was the most welcome I'd ever felt since coming to UW. I knew I'd found my place and I want to help others find their community at UW and continue to grow.
