

hi, i'm kavya iyer!

iuga director of academic support

about 🙋

Hey there! I'm Kavya, a rising senior from Kirkland, WA studying Data Science here at the iSchool. In my free time, I love trying new foods, playing badminton, and writing in my journal :)

experience

iSchool Peer Advisor (June '20 - Present)

- Working with current and prospective informatics students to understand academic needs
- Mentoring freshmen DAs
- Directing students toward iSchool and UW resources

UW Campus Tour Guide (Jan '20 - Present)

- Answering questions about student life and Informatics for prospective UW students
- Participating in student panels and Reddit AMAs

next year

mixers

Once we're on campus, I plan to host movie nights and other social events (with free food) to better connect our community.

peer resume review

I hope to host peer resume and portfolio review sessions so we can help each other improve on our professional goals.

blog

I plan to work with the rest of the IUGA council to continue updating our Medium blog monthly with new resources and other content.

my story

When I committed to UW, one of my biggest goals was to find a community within this school. After taking INFO 200 and 201, I knew Informatics was the place for me! As a peer advisor and a tour guide, I understand that students of all backgrounds are also looking to find the same thing - a UW family. I hope to use my extensive knowledge of UW's vast student resources to help organize capstone groups, plan fun events, and to help you reach your goals - no matter how big or small!

my [virtual] door is always open :D
