WORK EXPERIENCE

Assistant Resident Director, UW Housing & Food Services Sep. 2019 - Present
- Advised 25+ student leaders to plan, publicize, and run events with 100 - 225 attendees.

Technical Student Assistant, UW Housing & Food Services Jun. 2019 - Present
- Trained HFS administrators and student leaders on how to use Wordpress.
- Updated, designed, and maintained websites for REP, RPB, SEED, and RD Recruitment.

Teaching Assistant, INFO 201, UW Information School Sep. 2018 - Dec. 2019
- Developed and facilitated weekly lab sections for a class of 26 students.

VR Game Development Instructor, iD Tech Camps Jun. 2019 - Aug. 2019
- Taught VR game development using Oculus Go, Unity, and C# to groups of up to 10 middle and high school students through week-long project-based summer courses.

Resident Adviser (RA), UW Housing & Food Services Sep. 2018 - Jun. 2019
- Collaborated with a co-RA to plan and execute 40 events, manage a $300 budget, and develop a community among the 100+ residents on our floor.

React Native and Android Developer, Samaritan Jun. 2018 - Aug. 2018; Jun. 2017 - Dec. 2017
- Designed and implemented front-end views for corporate matching which led to over $4,800 in additional donations to homeless individuals in the first 2 years.
- Interfaced between the marketing team and developers to understand business requirements, write technical specifications, and measure KPIs for user referral feature.
- Coordinated with back-end developers to implement real-time form synchronization, improving reliability for Samaritan users who are often on intermittent data connections.

Front-End Web Developer, Soro Software Aug. 2017 - Oct. 2017
- Implemented reusable chart components to visualize complex customer and inventory data.

Android Development Intern, Samaritan Jun. 2016 - Aug. 2016
- Created launch-ready MVP that detected bluetooth beacons and accepted payments.

OTHER PROJECTS
